

MMTTC History

The MMTTC was founded in 1972 by world-renowned Montessori lecturer and trainer, Ursula Thrush. Ms. Thrush was

AMI trained in London and Bergamo by Mario Montessori, the son of Maria Montessori, and others. Ms. Thrush's brilliant curricula,

which have maintained their relevance for over forty years, along with the original curricula of the current Co-Director of the MMTTC—South Bay, Dr. Rebecca Keith, are the foundation for the MMTTC training.

Primary (3-6) Training

The Primary course is a two-year, part-time course which prepares adults to teach children, between the ages of 2 ½ and 6, in a Montessori environment. It is designed to be an interactive study based on Montessori's vision for life-long learning, utilizing all her materials and methodologies, integrated with current research in child development and early childhood education.

Why Train with Us?

Awareness of and interest in Montessori education is growing. It's our goal to support this growth and vision by putting well-developed teachers into the classrooms. Because our training program is small in size, we offer a more intimate setting that leads to deeper learning and the formation of lasting professional relationships in the Montessori community. We develop more confident teachers because of our focus on adult transformation and communication skills. Growing and nurturing non-violent communication skills is a strength of our program. Our graduates are ready to lead a classroom or jump into a teaching team.

"The MMTTC has been a beautiful, transformational learning experience. It has affected my career and personal life in many wonderful ways. It has been an amazing journey and I know I have joined a community I will enjoy for years to come." -Carmen V. MMTTC Graduate
